Message

Hi,

I wanted to take a minute to let you know that I would strongly urge you to consider the unnecessary danger that the Atlantic Coast Pipeline could bring. At a time when new energy sources are brimming with promise, please move this state in the right direction. If a lack of energy is becoming a concern, consider repealing the restrictions on solar and other power options that currently limit individuals from generating clean energy. Do not give into energy monopolies that are, in my opinion, making decisions about profit and not people.

Thank you for your time,

Amanda Robinson
